

Resources for Child Care Centers

Any child care program has to have dozens of different forms on hand and policies in place. Figuring out everything you need is hard enough; finding the time to track down and/or design all these documents is a tall order for anyone. That's why Child Care Resources has developed a comprehensive Center Resource Kit. Its five sections can be purchased separately or as a package, with forms and language you can customize for your program. You will save time and get it right – whether you are opening, expanding or modifying a program, or just want to improve what you're already doing. You receive printed versions of the templates and a USB with all forms.
